Research Infrastructures: documentation and management of social data

---

Personal Profile

Apostolos Linardis is Director of the Institute of Social Research (ISR) at the National Centre for Social Research (EKKE), Vice-President of the EKKE Board of Directors, and Chair of the General Assembly of the national research infrastructure network SoDaNet. He is a Grade A Researcher at EKKE's ISR, specialising in "Research infrastructures: documentation and management of social data". He holds a degree in Mathematics from Aristotle University of Thessaloniki, a postgraduate degree in Statistics from the Athens University of Economics and Business, and a PhD in Social Data Management Systems from the University of the Aegean. He has worked at EKKE since 2000.

His research interests focus on quantitative social survey methodology, data collection methods, statistical analysis, social data management and documentation, and the development of research infrastructures. He has participated in more than 70 national, European and international research projects as scientific lead or member of research teams.

He has undertaken scientific and methodological responsibilities in major international quantitative surveys, including the European Social Survey (ESS), as Sampling Manager; the OECD Programme for the International Assessment of Adult Competencies (PIAAC), as National Data Manager; and the World Bank survey "Social Protection Responses to Displacement and Integration", as National Data Manager and Analyst. He has also participated in the World Values Survey (WVS), the World Internet Project (WIP), and Eurostat's European survey on Gender-Based Violence (GBV). He is EKKE's Scientific Lead for the second round of the Gender-Based Violence

survey (GBV II, 2027–2028), for which the relevant Grant Agreement with the European Commission is expected to be signed in November 2026.

He is the scientific lead of EKKE's primary survey infrastructure, Surveys Hub, which supports face-to-face, telephone and web surveys (CAPI, CATI and CAWI), as well as of the EKKE Data Repository. He is also Greece's alternate representative to the European research infrastructure CESSDA ERIC. In addition, he conceived and proposed the EKKE Identity Survey, a new research initiative approved by the EKKE Board of Directors, aiming to systematically monitor social conditions, attitudes and change in Greek society over time.

He has taught research methodology on the postgraduate programme "Education Sciences" at the Hellenic Open University, as well as in a series of research methodology seminars at EKKE, the Department of Sociology of the University of the Aegean, and the Department of Social Policy of Democritus University of Thrace. He is the first author of the academic textbook "Methods of Data Collection Using Digital Questionnaires and Research Methodology", published in 2023 by Kallipos University Publications. The book is currently being translated into English and undergoing scholarly revision and updating, with the aim of making it accessible to a wider international academic and research audience.
